Thank you for your business!

PRICON MICROELECTRONICS INC.

We are truly pleased that you have given us the opportunity to provide you this quotation. In this regard, we would like to request that you read the following Terms & Conditions reagrding this engagement.

TERMS & CONDITIONS

1. This quotation is provided for review and approval of PRICON MICROELECTRONICS INC. to determine the safety compliance of its equipment, and is valid until 30 Days from the date of proposal. If an agreement has not been made within that time frame, a new quotation will be provided.

2. A Safety Officer should be entrusted by PRICON MICROELECTRONICS INC. to act as representative & liaison officer during the course of the project.

3. Should PRICON MICROELECTRONICS INC. decide to postpone or cancel the project before its conclusion, payment must still be made for equipment already inspected. In this regard, the rest shall be billed once inspection is continued.

4. Activity should be paid in whether above units passed or failed the inspection. However, if non-conformity is found among inspected units, the client is given a grace period of 15 days from the date of the Notice of Non-Compliance, at which time PRICON MICROELECTRONICS INC. can make corrective measures. If there is still non-conformity after the grace period, Kaizen Asia cannot issue Certification and thus, a FAILED sticker will be issued.

5. Issued Certificates and Stickers of Inspection are valid only at the following conditions: 1) for One (1) year from the date of issuance; 2) at the specified locations wherein units are inspected.

6. Kaizen Asia is not liable for the damages to the inspected units arising from the following conditions: 1) Breakdown of parts or the unit itself during the course of activity; 2) Mishandling and/or inappropriate use of the inspected units after certification; and 3) Unauthorized transfer of units.

7. Kaizen Asia reserves the right to postpone the activity due to unforeseen and uncontrollable circumstances where its employees may be at risk, and will only resume the activity once circumstances are no longer unsafe.

Thank you very much and may we look forward to be of service.
