We are pleased to quote you on the following items/services:

DESCRIPTION			UNIT PRICE	
Supply of labor and facilities for the analysis of (2) Metal Nozzle samples.				
A. Chemical Analysis using Wet Method				
C, S	(Infrared Combustion Analysis)	650.00 **/element**	=P=	1,300.00
Si	(Gravimetric Analysis)			1,130.00
P	(Photometric Analysis)			1,160.00
Mn,Ni,Cu, Cr	(Atomic Absorption Analysis)	670.00 **/element**		2,680.00
Mo	(Photometric Analysis)			1,530.00
			=P=	7,800.00
B. Metals Identifcation			=P=	750.00
C. Mechanical Testing				
I. Rockwell Hardness Test				
1.1 Rockwell Test (=P= 140/5 indentations)			=P=	140.00
1.2 Photo (=P= 80/photo)				80.00
1.3 Grinding (=P= 85/sample)				85.00
			=P=	305.00

Notes:

a. Price may vary upon change of test method. The client will be informed of any changes in test method.

b. Samples shall be evaluated by lab personnel prior to testing.

d. Test shall be conducted in accordance with ASTM standards for mechanical testing.

c. Chemical analysis will be conducted thru a ***destructive method.***

d. A minimum of ***50 grams*** *sample weight is required for analysis*

f. Lead time are as follows: 15 working days for chemical analysis, 7 working days for mechanical testing upon receipt of sample and payment.

g. Lead time for Metals Identification will be 7 working days after release of results from chemical analysis
