TO : Obet
Cc : Team

I think you have done all necessary steps and data plus the risk management.
Lesson Learned : Not all that shine is gold. Check deeper and always implement risk management analysis.
The current remedial plan is OK with me. The future plan that will extend to many years is objectively sound (we are not trapped with increasing cost)..

Carry on, this plan is approved.

FYI

Obet,
Cc: team

Please do have a background check of Optimum Elec……. And check the life of this new system ? (Is there a waaranty? .
More details before we make our final decision.

Thank you.

Obet,

I understand the situation , but thinking logically,
I cannot accept this offer of 400% increase. The next action will be :
1. Tell Calvelo Engineered System, Inc. about this 400% increase. They might consider some options.
2. Look for other supplier .
3. Search for a replacement of the current system which will also serve the purpose

FYI.

Sir Nelson,

The original quote of $ 690 (36,570) is from old supplier (**CreateRSC Technology Inc.** wherein we cannot contact them anymore.
A new quote of $ 2,824 (150,270) is the latest price of new supplier (Calvelo Engineered System Inc.) authorized by BEST ENISCOPE in the Philippines.

Obet,
Cc : Gerry, Tom

Another query :

Originally : Cost of unit / software installation = $ 690 (PHP 36,570)
Now : ..... = $ 2,824 (PHP 150,250)

Do you have any explanation on this disparity ?

Subject: RE: Quotation of ENISCOPE (Power Sub-meter) for PR approval

Sir Nelson,

Please see below in blue font.

1. **What is US $ 690 (Php36,570) _____ price of what ?**
   A. Eniscope unit with 4 nodes =US $ 440
   B. Software installation cost = US$ 250
2. **ENISCOPE (how many units was installed in our system (3 yrs old) :** 3 units ENISCOPE (11 Sub-meters) .

   ENISCOPE : How critical is its function ? _____ .
   Not so critical. We can replace it by power meter but manual monitoring.
3. **PHP150,250 – is the price of how many ENISCOPE ? 1 unit**
   The breakdown of Php 150,250 are:
   A. Php 115,270 → One unit of ENISCOPE = 115,270
   B. Php 15,000 → Installation (Conduiting and pathways, cabling for power supply and communications; inclusive of labor and materials)
   C. Php 15,000 → Engineering (Hardware and software Engineering; inclusive of set-up, configuration, testing & commissioning, training and documentation)
   D. Php 5,000 → Mobilization (Various preparatory works, including, but not limited to, transportation/ movement of personnel, equipment, supplies and incidents to Pricon site until completion)

4. **Have you search for a possible replacement of the ENISCOPE ?_____**
   This is actually the replacement cost of 1 unit ENISCOPE.
