Calibration Quote

Customer Aknowledgement.

Turn Around Time:
• Calibration Time Required: 5 to 7 Working Days unless otherwise specified
• Turn-around time is assess and base on the availability of standards and personnel to perform the calibration service.

Method Used:
• If no other Calibration Method is specified by the customer MPC will use Manufacturer, Military, Internationally recognized Industry Standard (ASTM, NIST, OMIL,etc), or MPC locally developed calibration procedure will be utilized based on availability.

Calibration Interval:
• Customer to advise Calibration Intervals for equipment. MPC will use Manufacturer's suggested interval or 12 months interval on calibrations done unless otherwise specified by Customer.

Calibration Subcontracting:
• Calibration Subcontracting will be completed by MPC Accredtied Vendor or Supplier if it will be required.
•All Subcontracted Calibrations shall be approved in advance by Customer.

Limited Calibration
• For units that are found to have a limited calibration, MPC will advice customer regarding its condition.
• MPC will proceed with limited calibration upon receipt of customer approval.

Units Found Out of Tolerance or Defective:
• For units that are found defective or unable to adjust to manufacturer's specifications, MPC will tag these units as defective and advise customer.
• MPC would like to request the opportunity to quote repair of these units at a local MPC Repair Center

Onsite Calibration Service Notes (When Applicable):
• On-Site Fee includes all travel, lodging, and transport of our standards to do the job.
• Customer to provide suitable calibration area that meets our environmental requirements to do the job.
• Customer should schedule the availability of their equipment for calibration as to not cause delay.

Equipment Adds or Reductions:
• Customer can add equipment during On Site Calibration Services. This request must be done in writing and approved by the customer.
• Customer must agree to amend their current Purchase Order to include the additional equipment or issue a new PO for the additional equipment.
• Customer may reduce the agreed Total Order Value by 5% without incurring any additional On Site Fee. More than 5% reduction of Total Order Value may result in higher On Site Fee.

Limited Liability:
• MicroPrecision Calibration, Inc. liability here-under shall be limited to the repair, restoration, or replacement of equipment items to the condition in which were received by MicroPrecision Calibration, Inc. upon pickup and/or serviced at the Customers facility.
• In no event shall MicroPrecision Calibration, Inc. be liable for any special, indirect, incidental, consequential or liquidated, penal or any economic loss / damages of any character, including, but not limited to loss of the customers property lost profits or lost production, whether claimed by the customer or by third party, irrespective of whether claims or actions for such damages are based upon agreement, warranty, negligence, strict liability or otherwise.

Customer Approvals:
• A Purchase Order from the customer based on this quote is recognized as an approval for MPC to do calibrations based on all the requirements that was discussed in this document.

• By signing the CUSTOMER CONFIRMATION field of this quotation will be recognized also as an approval for MPC to do calibrations based on all the requirements that will discussed in this document and invoice the calibration cost base on the agreed payment terms above upon completion of the service.

Division Notes

Payment Terms:
• Terms: T/T upon receipt of invoice or Post Dated Check unless otherwise noted above
• Quotation Validity: Quote Validity 30 Days from Quote Date.
• PO is required before items will be processed and calibrated.

Logistic Notes:
• Calibration Location: To be calibrated at MPC Lab unless otherwise specified
• Customer is responsible for the shipment of their items to and from MPC facility, unless otherwise specified.
• Customer should endorse all units with complete accessories.

Export:
• The Buyer agrees to comply with all applicable laws and regulations of the various states and of the United States. The Buyer shall not knowingly, without the prior written approval, if required, of the Office of Export Administration of the U.S. Department of Commerce or any other applicable government agency, export, either directly or indirectly, any Product or any portion of Product, or any software or any portion of software,to any country for which such approval is required.
• The Buyer acknowledges that the product and software may also be subject to the export laws and regulations of the country in which the Product and software is received, and the Buyer shall abide by such laws and regulations.
• The Buyer also understands that the requirements and restrictions of U.S. Law may vary depending on the Product and software delivered and may exchange over time and that, to determine the precise controls applicable to the product and software acquired, it is necessary for the Buyer to refer to the U.S. Export Administration Regulations and the U.S. Foreign Assets Control Regulations, or other applicable export regulations.

Warranty:
• MPC warrants calibration/certification accuracy at the time of delivery to Customer. MPC warranties its repair workmanship for a period of Ninety Days (90) days. Repair or replacement parts are warranted for a period of ninety (90) days or the manufacturer's published warranty if longer. This warranty begins upon the date when the equipment is delivered to, or picked up by Company.
Pick up and Delivery of Units at Customer's Facility:
• For pick-up of units at customer's facility, it is the responsibility of our customers to properly packaged instruments for shipment to MPC. Instruments should be placed in proper box or case with enough padding and support to prevent any damage during shipment of the unit to our facility. If any damage is identified during our receiving and proven to be the result of improper packing, MPC will not be held liable for damage due to packaging issues. MPC takes the utmost care of handling instruments during pick-up and delivery and we encourage our customers to help us avoid any instrument damage during in transit.
• Customer should report broken or damaged equipment due to shipping or handling process and/or equipment with functionality issues immediately after receipt.

CUSTOMER CONFIRMATION : I hereby accept all the conditions discussed in this quotation and allowing Micro Precision Calibration Inc to proceed calibration of our instruments.
