(CN)																		
Q	PATS Project (4 Automotive Lines) - 3rd Phase	22,970						22,970							5	2,297	20,673	Traceability project for 4 Automotive Lines
P	Conversion of Pneumatic Cylinder into Servo Motor Actuator	9,600			9,600										7	1,029	8,571	Modification of 8 identified pressing machine that incurred long hours of downtime due to pressing adjustment.
P	Measuringscope	25,000			25,000										7	2,679	22,321	Replacement of NG Measuringscope
P	Drill Press , Drilling Vise and Circular saw	3,500	3,500												5	642	2,858	• For in-house Fabrication.
P	Precision Granite Table	3,700	3,700												5	678	3,022	• Maintains precise and accurate measurement for base plate or other big parts that cannot be measured by Keyence • Use as measuring tool for in-house fabrication.
P	Gauge block	2,000	2,000												5	367	1,633	• Helps assembling of jig and machine set up to be precise to minimized variation on lines
P	Product Transfer Automation For CT5189 insertion and Pressing process	30,000			30,000										7	3,214	26,786	Strategy: • Installation of pick and place transfer in CT5189-013 insertion, CT5189-005 insertion and CT5189-013, 005 pressing.
P	Product Transfer Automation For Inspection Machine loading	12,000			12,000										7	1,286	10,714	Strategy: • Installation of pick and place transfer in CT5188 pressing machine and Inspection machine.

(TS)																		
P	Explorer 1 Xray Machine	90,000	90,000												7	11,786	78,214	For Probe and Claim Analysis
P	Nikon Measurescope (MM400) - XY Scope	23,000		23,000											5	3,833	19,167	Replacement of old type / phase-out model Measurescope.
P	UNION Optical DH2-1515 Measuring Microscope with DRO - Z Scope	27,000		27,000											5	4,500	22,500	Replacement of old type / phase-out model Measurescope.
Q	Laptop with Japanese OS (Pacman and Laser) - 2 Units	4,000			4,000										3	1,000	3,000	Replacement of old/defective machine laptop
P	CT Inspection Machine #2 for Memory	32,000				32,000									7	3,048	28,952	Automation of First Visual Inspection - reduction of 8 operator)
P	Integrated HVT and Auto Inspection Machine	40,000					40,000								7	3,333	36,667	Auto Inspection Machine and HVT for LGA Products (NP364 / Other LGA)
P	Sleeve cutting and Heating Process (Heatsink Assembly - Probe Type Socket)	5,000						5,000							3	833	4,167	Machine Development for Automated Process
P	Automatic Spring and Cover Assembly Machine	40,000							40,000						7	2,381	37,619	Automatic assembly process for socket assembly (manpower reduction)
P	Laser Machine for Metal Printing (Laser Head and Handler)	70,000								70,000					7	3,333	66,667	For printing of Maverick and Qualcomm (replacement of old machine)
P	Assembly Robot	50,000								50,000					7	2,381	47,619	Process automation
	Sub Total	381,000	90,000	50,000	4,000	32,000	40,000	5,000	40,000	120,000	0	0	0	0		36,429	344,571

(PPS-TS)																		
P	Easypag-pro V2.0/E, Excellway software	6,200	6,200												3	1,894	4,306	Auto programming of QV pack of grinding
P	New technocoat welding machine	44,000		44,000											5	7,333	36,667	Laser welding machine for die set repair
P	Portable auto pellet mixer	4,000				4,000									3	889	3,111	Auto mixing of regrind and virgin material
P	Jack lift (2500kg)	2,500					2,500								2	729	1,771	Replacement of NG jack lift
P	Mobile crasher (STOLZ SX-160)	6,400						6,400							3	1,067	5,333	Additional crasher
P	Mobile crasher (STOLZ SX-160)	6,400							6,400						3	889	5,511	Additional crasher
(PPS-CN)																		
P	Manual Oven - 300°C	7,000	7,000												3	2,139	4,861	For CN product annealing process
P	Water type mold temp controller	5,000		5,000											3	1,389	3,611	Preparation for replacement of old equipment observed nearly to breakdown
P	Portable auto pellet mixer	4,000			4,000										3	1,000	3,000	to be allocate in CN171 virgin - recycle mixer
P	Mold watching device	14,000				14,000									5	1,867	12,133	Sodick machine current mold watching device observed nearly to break
P	HIZOMET measurescope system enhcancement	7,000					7,000								3	1,361	5,639	Current use manual, measurement result not yet set linked to PC
P	Hopper dryer	4,000							4,000						3	556	3,444	Existing hopper is nealy to break
P	Hopper dryer	4,000								4,000					3	444	3,556	"NO" hopper dryer installed

(YF)																		
P	Vacuum Sealer	10,000		10,000											7	1,190	8,810	For replacement of near lifespan machine
P	Semi-automatic sheet cutting preparation machine	8,000			8,000										5	1,200	6,800	For sheet preparation for models that required manual cutting prior machine cutting. Automation of manual process
Q	Machine Laptop	2,000				2,000									3	444	1,556	For machine setup and programming (Holing and RICOH FCT) / Defective slow laptop at Trace Code
P	Multiple semi-automatic shell press machine	17,000							17,000						7	1,012	15,988	For increase capacity of shell press attachment machine. Semi-automation of loading and unloading of unit
P	Auxillary parts for picture inspection machine	5,000							5,000						3	694	4,306	Continuation of parts procurement for maximization of picture inspection machines
